

FOR IMMEDIATE RELEASE:

MBMG Investment Advisory highly commended at International Fund & Project Awards

Bangkok – 20th October 2016: MBMG Investment Advisory was highly commended in the Best International Private Banking Service (Non-UK) category and nominated for the Best Best-Practice in Offshore award.

In highly commending the firm in the category of *Best International Private Banking Service (Non-UK)*, the judging panel recognized MBMG Investment Advisory's ability to advise its clients on a wide range of current, deposit and savings products, minimum entry levels, currencies options and related financial services.

The *Best Best-Practice in Offshore* category acknowledges firms which have not only adopted best practices on behalf of their clients, but have gone the extra mile to put in place practices that serve as a beacon for others looking to improve their own businesses.

MBMG Investment Advisory was nominated for its 100% fee-based model, which is quite different from how the banks and other traditional players in the local wealth management industry operate. The firm charges clients a fee based on the advice it gives to them.

"This commendation and nomination are excellent achievements", commented MBMG International Advisory Managing Director, Paul Gambles. "They represent a nod to all the hard work the team has put in since set the firm up and received our licence from the Thai SEC."

"Our fee-based model enables us to really tailor our advice," said MBMG International Advisory Managing Director, Paul Gambles. "We look for the most suitable products available to each client, without limitations. It also assures clients that we're not recommending products based on commissions and puts the emphasis on the advisor to suggest the most suitable solution to meet the client's needs."

"The fees that the firm charges its clients are based on the advice it gives to them. That places each advisor's focus and emphasis on the suitability of what they're offering, to meet the client's needs," he added. "The better the job our advisers do, the higher the chance they have of getting an ongoing and repeat fees."
